OUR INTENT

Seth Anandram Jaipuria School, as an educational institution, stands as a hallmark in the metropolis of Kanpur. Over the years, since its inception in 1974, the school has been the most sought after institution, an ultimate destination for parents who are on a look out for an institution which provides holistic development. A school which does not cater to just their intellectual but also physical, spiritual and emotional quotients.

We, as an institution realize our commitment towards society and work with an utmost sense of sincerity and integrity. We value and treasure every child entrusted to our care. Right from the time a child walks into the portals of this institution, we take it as our prime and supreme responsibility to nurture him in the best way possible, in the most conducive of environments.

With the amount of trust that parents show in us, we feel further duty bound to live upto their expectations. All our faculties are channelized towards catering to the hosts of talents and capabilities possessed by every child given to our care. In this regard, the school is working ceaselessly to ensure that every child gets to find some area of activity which matches with his interest and inclination. In this light, the school offers to them a plethora of activities to choose from.

Jaipuria as an institution propels its students to aim for the sky, keeping pace with the ever changing world and at the same time not loosening on the roots of its rich and diverse culture.

The school is an epitome of a culture where one finds a perfect blend of enviable age old traditions and the latest pedagogy in the world of education. This enables us to give back to the society young adults who are fixed to their roots and at the same time have the potential and spirit to soar to regions unexplored and unimaginable.

With each passing year, we endeavour to strive even harder, because we strongly feel that if one is not moving ahead with time, one is for sure moving backwards. In this fast paced world of cut throat competition, one has to have a bigger vision and a broader perspective, if one wants to excel and remain at the helm. This belief triggers in us a keen desire to work with double the zeal and energy so that there is never a looking back, as winning has become a second nature to us 'Jaipurians'!!!
